

## **PAINTING TECHNIQUES AND EXPRESSIONS with TIM PRICE Class ID T4 TP**

**TUESDAY EVENINGS: 15 October 2019 to 19 November 2019 5.30pm - 8pm**

**The cost of these classes is \$90 for 6 (six) weeks x 2 ½ hours per class.**

In this six week course we will be alternating between technical classes where we learn techniques for realistically painting the world, and classes where we engage in exercises where we loosen up and develop our self-expression. For weeks one, three and five we will learn technical skills. For weeks two, four and six we will paint self-expressively.

For the technical classes we will look at proportion, colour mark making, and focus on how to paint particular things like water or trees. The technical classes will involve an initial demonstration, the setting out of a clear and achievable task from which it is easy to build up skills, and further demonstrations to individuals when needed.

For the self-expressive classes we will do fun painting exercises and games designed to help loosen up and express ourselves more readily. These classes involve doing a series of quick and easy activities and painting games that are designed to get the students to relax and jump into picture making that engages with the nuts and bolts of expression – colour, mark making, composition, tone etc – without having to worry about ‘getting it right’.

This course will be thoroughly engaging, and immensely enjoyable, and suitable for anyone who wants to learn the basics of painting or further develop their skills.

### **What to bring:**

Acrylic paint  
Canvas or canvas paper  
Brushes  
Board (to support paper) if needed  
Rag  
Palette  
Palette knife  
Sketching paper and pencils

Or

Watercolour paint  
Watercolour paper  
Brushes  
Board (to support paper)  
Tape  
Sketching paper and pencils

Note: These lists are suggested bare minimum; bring any other equipment you wish.
